

Being Moneywise, Securing Your Future Goals Today

**Money, the long green paper
A medium of exchange, and to all a life saver.
It is considered to be one of the most powerful tools,
That brings people closer to securing their future goals.**

**Money is the driving force of any society.
Thus being moneywise is the way of people that become wealthy.
Everything we rely on requires money,
It is something that turns a dark, bleak, gloomy day, sunny.**

**Investing, saving and being smart about your spending;
Is a method of sound financial decision making.
This will not only help a person in his future;
But will also help all countries in their economic venture.**

**Being money smart will help people prioritize their needs and wants;
Maximizing savings with less funds.
Short term and long term goals can also be set;
With greater understanding of financial concepts, these goals can be met.**

**Leading Fiji to economic success;
Is the vision of the Reserve Bank of Fiji.
Making being moneywise to secure your future goals a mission;
Will make the attainment of this vision very easy.**

**So let's all be moneywise,
And strive to use it as a strong vice.
To fulfill all our financial roles,
And be able to secure our future financial goals.**
